

SAFETY DATA "HAIRWAY SOFTWAX Creamy Sensitive"

1. Identification of the substance/preparation

Product: HAIRWAY Softwax Creamy sensitive White, oil soluble

2. Composition/Information on ingredients

<u>Hazardous ingredient</u>	<u>Approximate concentration</u>
-----------------------------	----------------------------------

None

3. Ingredients INCI

Glyceryl Hydrogenated Rosinate

PARAFFINUM LIQUIDUM

RICINUS COMMUNIS

CI 77891

BHT

May contain : Hydrogenated coconut oil, CI61565

4. First Aid

Inhalation: At normal use, inhalation of vapors is not problem. Remove to fresh air. If overexposed, and breathing is irregular, get prompt medical attention.

Skin contact: no adverse effects. Prolonged or repeated skin contact may cause irritation or sensitization in sensitive subjects

Eye contact: rinse eyes with water during 15 minutes and obtain medical advice

Oral contact: rinse out mouth with water. Drink large quantities of water. Call a doctor.

5. Fire Fighting measures

Extinguishing media:

Foam, dry chemical powder, carbon dioxide

Fire and explosion hazards:

none

Special Fire-Fighting procedures:

Use impervious gloves. Use goggles. Use a dust mask.

Hazardous Combustion Products:

Smoke, carbon dioxide, and carbon monoxide may be formed in the event of

incomplete combustion

6. Accidental release measures

Personal precautions: See Section 8

Land Spill:

Shut off source taking normal safety precautions. Prevent liquid from entering sewers, water courses or low lying areas. Advise relevant authorities in case. Recover by skimming or pumping or contain spilled liquid with sand or other suitable absorbent.

Water Spill:

Confine the spill immediately with booms. Notify port and other relevant authorities. Warn other shipping

Remove from the surface by skimming or with suitable absorbents. Disperse the residue in unconfined waters.

7. Handling and Storage

Store the products in cool, well ventilated surroundings, well away from sources of ignition. The product is prone to slow oxidation and it is recommended that it be used on a first-in first-out basis.

Load/unload temperature: ambient to max 40°C

Storage temperature: 0°C to max 40°C

Special precautions:

Keep containers closed when not in use

Take extreme care to avoid contamination by other products and materials.

8. Exposure controls and personal protection

Engineering controls:

Handle in a well ventilated area. Normal industrial hygiene measures should be sufficient.

Personal protection:

Use impervious gloves. Use goggles. Use a dust mask.

9. Physical and chemical properties

Appearance/Odour: Slight rosin odour

Solubility: Soluble in alcohols, esters, ketones, hydrocarbons, chlorinated solvents and mineral oils.

Softening point: +/- 80 °C

Solubility in water: negligible at 20°C

Flash Point : > +/- 190°C

10. Stability and Reactivity

Stability (thermal, light, etc): stable

Reactivity:

This product has limited chemical reactivity. No hazardous chemicals are known to be formed during the use of this product.

Conditions to avoid:

Keep away from any source of ignition

11. Toxicological information

Inhalation: Negligible hazard at normal/ambient handling temperatures.

Skin Contact: Not considered to be a hazard

Eye Contact: Not considered to be a hazard

12. Ecological information

Biodegradability: very low

13. Transport information

Usual shipping containers

Transport temperature: ambient to max 40°C
