The Gharieni Triple Detox Therapy, MLX I3 Dome is the new generation of detox treatments. Combining Far Infrared technology with Plasma and Light, this spa table offers 3 ultra-effective detox treatment methods in one.

Shown optional with Plasma Light Therapy

MLX i3Dome - The Ultimate Detox Booster

The Gharieni Triple Detox Therapy „MLX i3Dome“ is the new generation of detox treatments. Combining Far Infrared technology with Plasma and Light, this spa table offers 3 ultra-effective detox treatment methods in one.

Charge your batteries and detox

While the Gharieni FIR-technology stimulates the metabolism and the perspiration of the body with long-wave infrared rays through the MLX iDome, the additional Plasma- and Light-Therapy device (PLT) at the head section provides visible skin rejuvenation and detoxification already after the first use. Using the three therapies in such a well thought-out combination is much more effective, as all three therapies support and multiply the results of all individual treatments.

No therapist needed

The Gharieni MLX i3Dome concept works as a stand-alone therapy, where no therapists is needed. After the client is positioned on the MLX iDome and the PLT device, no hands are necessary to support the Gharieni MLX i3Dome detox therapy.

- Dome electrically adjustable with 2 motors
- Table surface height: 54-94 cm (21.3 – 37 in) • Length: 225 cm (88.6 in)
- Width overall: 90 cm (35.4 in) • Table surface width: 70 cm (27.6 in)
